

They say cats have

NINE LIVES.

The **OUTDOOR** cats of
Burbank would settle for

JUST ONE.

There are many feral cats in the shelter that need a safe place to live. Barns, stables, industrial sites and residential yards are ideal locations. Outdoor cats require minimal care and are a safe, natural deterrent to rodents.

Adoption Fee \$78 Includes:

Spay/Neuter

Feline Leukemia/Feline Aids Test

FVRCP Vaccination

FELV Vaccination

Rabies Vaccination

Dewormer

Flea Treatment

Ferals are also an ideal solution for people who love cats but due to allergies can not have them in their home.
